

Molecular Medicine

Master of Science
in Biomedical Research

Improved...

- curriculum
- range of electives
- internationality

... now in English!

Molecular Medicine

Master of Science
in **Biomedical Research**

LECTURES

- Molecular Oncology
- Genomics and Genetics
- Molecular Embryology
- Structural Biochemistry
- Immunology
- Neuroscience
- Molecular Imaging
- Systems Biology
and
- Elective Module of
Choice

SEMINARS

- Scientific Writing
- Good Scientific Practice
- Animal Care
- Biological Safety
- Elective seminars, e.g. in
 - Virology,
 - Microbiology,
 - Immunology,
 - Imaging,
 - Neuroscience,
 - Animal Models,
 - Cardiac and Renal Diseases,
 - Human Genetics

LAB RESEARCH

- Research stay abroad or
in Germany
or
- Industry internship
- Six months practical
master's project

Molecular Medicine

Master of Science in Biomedical Research

Semester					
1	Advanced Lectures in Molecular Medicine 1	Architecture of Biopolymers	Elective Seminar 1	Laboratory Animal Science & Biological Safety	Elective Module
2	Advanced Lectures in Molecular Medicine 1	Research Design	Elective Seminar 2	External Research Module	
3	External Research Module		Elective Seminar 3	Project Development	
4	Master's Thesis: Research Project & Colloquium
